PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors: D. I. Arnon, Berkeley; J. Baeyens, Louvain; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen; L. K. Wiersum, Haren.

Secretary:
G. H. Arnold

Assistant Secretary:
J. K. Smit

c/o Institute for Soil Fertility
Haren (Gr.), Netherlands

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; A. van Diest, Wageningen; L. Gisiger, Liebefeld-Berne; A. J. de Groot, Haren; W. R. C. Handley, Oxford; J. L. Harley, Oxford; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; T. A. Lie, Wageningen; W. J. Lütjeharms, Bloemfontein; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Haren

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

T. A. Al-Ani, I. M. Habib, A. I. Abdulaziz and N. A. Ouda, Plant indicators in Iraq. II. Mineral composition of native plants in relation to soils and selective absorption 29

R. Ballard, Interrelationships between site factors and productivity of radiata pine at Riverhead Forest, New Zealand 371

B. Bar-Yosef, Fluxes of P and Ca into intact corn roots and their dependence on solution concentration and root age . . 589

Nabila Bassioni and Erma Ikonomova, On the mechanism of nitrate uptake by plant roots. I. Nitrate influx and nitrogen compounds efflux as affected by some factors . . . 299

Nabila Bassioni and Erma Ikonomova, On the mechanism of nitrate uptake II. A study of the time course of nitrogen influx and outflux by the use of N^{15} 305

Nabila H. Bassioni, *Short communication.* Temperature and pH interaction in NO_3 uptake 445

Blanche Benzian, S. C. R. Freeman and J. D. D. Mitchell, Isobutylidene diurea and other nitrogen fertilizers for seedlings and transplants of *Picea sitchensis* in two English forest nurseries 517

J. G. Bhatt and E. Appukuttan, Nutrient uptake in cotton in relation to plant architecture 381

H. W. Boyd, Manganese toxicity to peanuts in autoclaved soil 133

E. A. Brams, Continuous cultivation of West African soils: organic matter diminution and effects of applied lime and phosphorus 401

A. C. Bunt and Z. J. Kulwiec, The effect of container porosity on root environment and plant growth. II. Water relations . 1

Wing-to Chan and A. F. Mackenzie, Effects of light intensity and nitrogen level and source on growth of corn (*Zea Mays* L.) in a controlled environment 173

T. N. Chaudhary, N. T. Singh and Govinder Singh, *Short communication.* Water absorption by seeds as affected by soil temperature 189

P. K. Chhonkar, V. Iswaran and K. S. Jauhri, *Short communication.* Seed pelleting in relation to nodulation and nitrogen fixation by *Phaseolus aureus* L. in a saline alkali soil 449

T. S. Chopra and J. N. Dube, Changes of N content of a rice soil inoculated with *Tolypothrix tenuis* 453

I. S. Cornforth and D. Walmsley, Methods of measuring available nutrients in West Indian soils. I. Nitrogen 389

Frank M. Eaton, W. R. Olmstead and O. C. Taylor, Salt injury to plants with special reference to cations versus anions and ion activities 533

Eva Eklund and Eija Sinda, Establishment and disappearance of introduced pseudomonads in the rhizoplane of peat-grown cucumber plants 495

Mohammed M. El-Fouly, Hassan A. El-Hamawi and Ahmad F. A. Fawzi, *Short communication.* Different effects of chlormequat on chlorophyll, protein and yield in cotton grown under varying water regimes 183

F. B. Ellis and B. T. Barnes, *Short communication.* A mechanical method for obtaining soil cores 209

W. Foulds, *Short communication.* Effect of drought on three species of Rhizobium. 665

Ruth L. Gadgil, The nutritional role of *Lupinus arboreus* in coastal sand dune forestry. 3. Nitrogen distribution in the ecosystem before tree planting 113

B. V. GANTOTTI and G. RANGASWAMI, Improvements in the physical properties of soil under the influence of the rhizosphere microflora of four different plant species 347

A. C. GAUR, K. V. SADASIVAM, O. P. VIMAL and R. S. MATHUR, A study on the decomposition of organic matter in an alluvial soil: CO_2 evolution, microbiological and chemical transformations 17

A. C. GAUR and K. K. R. BHARDWAJ, Influence of sodium humate on the crop plants inoculated with bacteria of agricultural importance 613

P. M. GIORDANO and J. J. MORTVEDT, *Short communication.* Effect of substrate Zn level on distribution of photo-assimilated C^{14} in maize and bean plants 193

V. O. GRASMANIS and D. J. D. NICHOLAS, Annual uptake and distribution of N^{15}-labelled ammonia and nitrate in young Jonathan/MM104 apple trees grown in solution cultures . . 95

HELEN GRIMES and C. L. MASTERSON, Isoenzyme patterns of nodules from specific legume-Rhizobium combinations . . 289

HELEN GRIMES and S. TURNER, Qualitative and quantitative studies of some enzymes in the nodule, root and shoot of *Pisum sativum* 269

UMESH C. GUPTA, F. W. CALDER and L. B. MACLEOD, Influence of added limestone and fertilizers upon the micronutrient content of forage tissue and soil 249

C. T. HAAN and B. J. BARFIELD, *Short communication.* Controlling the soil moisture environment of transpiring plants 439

A. K. HELMY, M. TSCHAPEK, N. PEINEMANN, and E. A. FERREIRO, Electric potentials of plant roots 549

H. M. W. HERATH and D. P. ORMROD, Temperature effects on the response to sulphur of barley, peas and rape 635

M. C. HOYLE, Effects of the chemical environment on yellow-birch root development and top growth 623

D. R. HUMPHREYS-JONES, *Short communication.* Studies on a method of carry-over of downy mildew (*Bremia lactucae*) of lettuce 187

J. L. M. HUNTJENS, The influence of living plants on mineralization and immobilization of nitrogen 77

R. HÜSER, Die Umsetzung von N^{15}-Düngern in Proben einer Podsol-Braunerde und ihre Ausnutzung durch einjährige Koniferen 37

M. ISHAQUE, A. H. CORNFIELD and P. A. CAWSE, *Short communication.* Effect of gamma irradiation of an acid tea soil from East Pakistan on nitrogen mineralization and nitrification during subsequent incubation 201

J. G. IYER, E. E. SCHULTE and G. W. RANDALL, *Short communication.* Relationship between foliar composation of red-pine and jack-pine seedlings and vulnerability to Lophodermium needle-cast disease 213

TOGWELL A. JACKSON, *Short communication.* Biochemical weathering of calcium-bearing minerals by rhizosphere micro-organisms, and its influence on calcium accumulation in trees 655

LAMAR JOHANSON and H. E. JOHAM, The influence of sodium on the calcium nutrition of excised cotton roots 323

MESBAHUL KARIM, SHAFIQUR RAHMAN and MAINUR RAHMAN, *Short communication.* Rb^{86} as tracer for potassium: I. Uptake of Rb and K by plant in nutrient solution 179

C. K. LABANAUSKAS, L. H. STOLZY, L. J. KLOTZ and T. A. DEWOLFE, Soil carbon dioxide and mineral accumulation in citrus seedlings (*Citrus sinensis* var. Bessie) 337

L. B. MCLEOD, U. C. GUPTA and J. A. CUTCLIFFE, Effect of N, P, and K on root yield and nutrient levels in the leaves and roots of rutabagas grown in a greenhouse 281

K. MENGEL und H. FORSTER, Der Einfluss der K-Konzentration der Nährlösung auf die Ertragsbildung, die Qualität und den K-Aufnahmeverlauf bei Hafer 65

J. C. Montojos and A. C. Magalhaes, *Short communication.* Growth analysis of dry beans (*Phaseolus vulgaris* L. var Pintado) under varying conditions of solar radiation and nitrogen application 217

Esam Moustafa, M. Boland, and R. M. Greenwood, *Short communication.* Transport of phosphate from leaves to leguminous root nodules 651

R. J. K. Myers and J. W. McGarity, Factors influencing high denitrifying activity in the subsoil of solodized solonetz 145

Reffat G. Omran and Robert D. Powell, Chilling injury in okra (*Hibiscus esculentus* L.) in relation to plant development and nitrogen metabolism 357

N. B. Paul and W. V. B. Sundara Rao, Phosphate-dissolving bacteria in the rhizosphere of some cultivated legumes . . . 127

S. S. Prihar, M. R. Chowdhary and T. M. Varghese, Effect of post-planting loosening of unstable soil on the anatomy of corn root 57

M. S. I. Quraishi and A. H. Cornfield, Effects of addition of varying levels of copper, as oxide or phosphate, on nitrogen mineralisation and nitrification during incubation of a slightly calcareous soil receiving dried blood 51

S. Ravikovitch and D. Yoles, The influence of phosphorus and nitrogen on millet and clover growing in soils affected by salinity. I. Plant development 555

S. Ravikovitch and D. Yoles, The influence of phosphorus and nitrogen on millet and clover growing in soils affected by salinity. II. Plant composition 569

R. L. Rittenhouse and M. G. Hale, Loss of organic compounds from roots. II. Effect of O_2 and CO_2 tension on release of sugars from peanut roots under axenic conditions . 311

M. J. M. Römkens and R. D. Miller, Predicting root size and frequency from one-dimensional consolidation data – a mathematical model 237
